

# European Flight Service

As Scandinavia's leading business Aviation Company, we offer highly flexible and secure solutions with the utmost discretion

EFS is a Scandinavian based business jet company operating a highly flexible state of the art fleet of aircraft. We always put safety and quality above all.

We have access to smaller airports not often used by scheduled airlines, which can offer shorter transfer times and more privacy.

With EFS as your travel partner, nothing is impossible. You can easily manage breakfast in London, a lunch meeting in Rome and dinner in Moscow, all in just one single day. It's a time saving tool and the safest way to travel. The quiet environment onboard provides you with the opportunity to work almost door-to-door, discreetly and effectively.

Together with our other services, such as ground transportation, catering, or additional custom made solutions, we will care for every step of your journey.

EFS together with EMS European Maintenance Service offers full EASA 145 and Part M technical services.

EMS is headquartered in Gothenburg, Sweden and has operations at Stockholm Arlanda Airport and Falköping, Sweden.

EMS is also planning to initiate operations from Farnborough, UK and Rygge, Norway. EMS is an aircraft maintenance company specializing in general aviation base and line maintenance, jet aircraft serviced by EMS include

a wide range of Cessna Citation types.

- Gulfstream G550: The ultimate business jet, a long range aircraft which can carry up to 14 passengers non-stop over a distance of 12,500 km.
- Legacy 600: A very large cabin makes the Legacy a true midsize aircraft that can carry up to 13 passengers over 5,000 km.
- Citation Sovereign: A very quiet, luxurious and fast aircraft that can carry 9 passengers almost 5,000 km.
- Citation XL/XLS: A real workhorse, perfect for European operations carrying 8-9 passengers over 3,000 km in a large stand-up cabin.
