
Empire Aviation Group

Empire Aviation Group – one-stop private aviation in the Middle East and beyond

Established in 2007, Empire Aviation Group (EAG) is today the leading one-stop specialist for private aviation in the Middle East operating the region's largest

managed fleet of executive jets of more than 20 aircraft.

Operating from Dubai International Airport, in the United Arab Emirates, EAG focuses on a highly distinctive asset management approach to private aviation which combines substantial private aviation experience and expertise with 5-star customer service for managed aircraft owners and charter clients.

EAG was originally founded in the UAE in response to the regional opportunity for private aviation services. Ultimately, EAG aims to become a significant international player, and the company has already taken its first steps by opening an overseas branch, in Mumbai, India. This will eventually offer the full range of EAG services in the subcontinent, with an initial focus on aircraft sales and management.

The service portfolio continues to develop; EAG joined forces with RMSI, the Dubai-based MEDEVAC specialist, to launch a new Intensive Care Air Ambulance service, operating a specially configured Hawker 800XP business jet. Meanwhile, an exclusive partnership with Quest Aircraft will offer a new dimension through the KODIAK aircraft, which meets many of the special mission demands flown across the Middle East and India.

In addition, EAG's luxury travel division – Lifestyle@Empire – offers premium bespoke travel experiences combining exotic destinations with luxury hotels, together with private jet charter. EAG already works with some of the world's leading luxury hospitality brands, including Taj Hotels Resorts and Palaces, and The Langham, London.

EAG has assembled a highly experienced team of more than 100 aviation specialists to offer this unique, comprehensive and integrated portfolio of services.
