

# Napa Jet Center

Serving Napa and Beyond Since 1946

Napa Jet Center is one of the area's most acclaimed full-service Fixed Base Operators (FBO) providing the entire range of aviation-related necessities, supplies and services available 24 hours a day (24/7/365) at the Napa County Airport. They offer full-service fueling for all aircraft, from single engine piston to global business jets, a full maintenance facility, the private hangaring of aircraft, aircraft management programs, 24 hour worldwide air charter services, rental aircraft, flight school, a complete wine, gift and pilot supplies shop.

As a NATA best practices FBO, Napa Jet Center has instituted procedures and policies to insure safe and professional operations. Napa Jet Center functions not only as an FBO,

but also as a wine country "conciierge". Napa Jet Center arranges lodging, winery tours, rental cars, catering and limousines for corporate clients looking to experience the mystique of Napa's wine country.

Napa Jet Center makes it possible for aircraft owners to use and enjoy their airplane without taking on the unfamiliar and sometimes complex day-to-day challenges. Management services can be as comprehensive or specific as directed.

Napa Jet Center provides dedicated crew services including hiring, training and supervision of flight crews. Throughout the years, Napa Jet Center has maintained an Aircraft Charter Department

along with Aircraft Management Services, encompassing turbine, turboprop and piston aircraft.

We are members of, and hold leadership positions in NATA (National Aviation Transportation Association), NBAA (National Business Aviation Association) and NBTA (National Business Travel Association). Our Charter Department is also ARG/US Gold rated.

Napa Jet Center remains true to their roots by offering, not only a first-class flight school, but also by growing and maintaining the largest and longest running Cessna Sales Team Authorized Representative (CSTAR) in the West.

Napa Jet Center helps the community "Learn to Fly", by providing many avenues for aircraft ownership and also providing rental aircraft for the recreational pilot...not to mention the best scenery in the world to view as you learn to fly!
